

New Custodian Bank Partner for SOLUFONDS

SOLUFONDS expands its custodian bank network

With immediate effect, Credit Suisse is now also available to SOLUFONDS's private labelling clients as a custodian bank for all Swiss fund projects. Thomas Zimmermann, responsible for fund structuring at SOLUFONDS, is excited about the new cooperation: "With Credit Suisse, we are pleased to be able to offer our clients a versatile global player as a possible custodian bank. With Credit Suisse, we will not only be able to count on an experienced custodian bank partner in the traditional fund area, but also and above all in the alternative fund area in the future".

In addition to Credit Suisse, SOLUFONDS' clients now have the choice of Banque Cantonale Vaudoise (BCV), Cornèr Banca and UBS as custodian banks for bespoke private label funds.

About SOLUFONDS <https://www.solufonds.ch/en>

SOLUFONDS was founded in 2008 and is a fund management company under Swiss law whose core business is the structuring and administration of private label solutions. The fund management company is completely independent of any bank, asset manager or other financial institution, which enables individual fund solutions that are completely tailored to the needs of the clients. The fund management company provides its services mainly to institutional clients who do not wish to structure and administer their own funds themselves.

SOLUFONDS has almost 30 employees. Assets under management at the Signy and Zurich offices, including ongoing projects, currently amount to more than CHF 3 billion.
